

As we think about how we as a church can operate in the current climate, we have been running some 'picnic services' called **Paddock Praise** on alternate Sundays over the summer. Socially distanced, each family get their own zone and of course being outside decreases risk of transmission of Covid19. These short services are pitched for families and involve music, games, activities and fun things to do. We can't sing with the current restrictions so have worked round that by doing games, songs and prayers with actions. Its been great fun and has had a really lovely atmosphere.

12:30pm (if its fine) and we will hopefully look to add some more through September depending on the weather. Details will be published on social media and our website. Signing up for this is essential as we have to record details for the Track and Trace tonyfromstpeters@yahoo.com for the form. Full forms.

We continue to explore what we will be able to do in the future on this one, but the church continue and children's activities on YouTube. There is an evening prayer service on Wednesdays and other opportunities are being considered.
